## CALL FOR RESEARCH GRANT

A call for one research fellowship is open, in the framework of the R&D project "SIICEI - Intelligent System for Identification of Electrical Loads in Industrial Equipment" (CENTRO-01-0247- FEDER-033338), by the European Regional Development Fund (ERDF), through the Regional PO Centro (CENTRO 2020) under the provisions of Aviso 03/SI/2017 from Portugal 2020, and according to the Companies' Incentives System (SI) regulated by Portaria 57-A/2015 from 27 February, in the following conditions:

**Scientific area:** Electrical and Computer Engineering, Informatics Engineering, Engineering Physics, or a related area..

**Admission requirements:** Master/MSc in the area of Electrical and Computer Engineering, Informatics Engineering, Engineering Physics, or a related area.

Preferential conditions: knowledge on computational intelligence, machine learning, classification, signal processing, real-time systems, computer programming, hardware/software; knowledge in the subject areas of the activity object of the fellowship .

**Work plan:** Research and development activities in computational intelligence, machine learning, classification, signal processing, real-time data analysis (data stream), real-time systems, hardware/software modules, and their application in the context of the development of a system for identification of electrical loads of industrial equipment by analysis of signals from the electrical network.

A large part of the work will focus mainly on algorithms, data processing, and machine learning..

**Regime:** The attribution of the fellowship does not generate or entitle a relation of a legal-labour nature, and the fellowship is undertaken in an exclusive dedication regime. The fellow is granted with the Fellow Statute of the UC, in its current wording, according to the Statute of the Scientific Research Fellow, and according to the Regulation of Research Grants of the Fundação para a Ciência e a Tecnologia, I.P., both in their current wording.

**Location:** Department of Electrical and Computer Engineering, Faculty of Science and Technology at the University of Coimbra.

**Duration:** Six (6) months..

**Renewal:** : The fellowship is eventually renewable through periods of equal or lower duration making a total duration not greater than 23 months. The period(s) of each fellowship (including their

UNIVERSIDADE DE COIMBRA

renewals) will be adjusted if necessary in order for the fellowship to not terminate after the end of the project (predicted to be 2020/10/31)..

**Scientific orientation:** Prof. Rui Alexandre de Matos Araújo..

**Financial conditions:** The amount of the grant is € 989,70 corresponding to the monthly compensation stipulated in the FCT table (<https://www.fct.pt/apoios/bolsas/valores.phtml.en>), plus social security (Seguro Social Voluntário, first level contributions) and personal accidents insurance. The payment will be made by bank transfer. This amount will not be increased during the entire period of the grant duration.

**Selection methods:** Curricular evaluation (70%) and interview (30%) of the 10 best classified candidates in the curricular evaluation part. For each fellowship, in case no candidate has an adequate profile (global evaluation under 50%), the fellowship will not be granted..

**Selection criteria:** The curricular evaluation will focus on the following criteria: (1) Curricular elements presented, including the adequacy of the profile and merit of the candidate to the needs of the project (40%); (2) Knowledge in the area of the work plan and desired profile; knowledge on computational intelligence, machine learning, classification, signal processing, real-time systems, computer programming, hardware/software; knowledge in the subject areas of the activity object of the fellowship (30%). In the interview, motivation, commitment, perseverance, adequacy of the profile and merit of the candidate to the needs of the project, and knowledge in the area of the work plan and desired profile will be evaluated (30%).

**Jury responsible for selection:** Prof. Aníbal Traça de Carvalho Almeida, Prof. Urbano José Carreira Nunes, Prof. Rui Alexandre de Matos Araújo.

**Formalization of application:** Applications must be formalized, obligatorily, by sending the following elements: (1) Letter of presentation, application and motivation; (2) Curriculum Vitae (CV) of the applicant, specifying skype address; (3) Copy of the certificate(s) of academic qualifications with the mean overall final classification in the courses (e.g. Grade Point Average, GPA). The CV should include: (i) contact information, (ii) Academic qualifications (including, for each course, a complete list of the concluded courses/subjects/curricular units and their classifications), (iii) List of scientific publications, (iv) Main projects where the applicant has participated, (v) other information considered relevant.

Candidates with foreign academic diplomas are obliged to present records of the recognition of such diplomas according to the Portuguese law.

UNIVERSIDADE DE COIMBRA

Candidates with foreign academic diplomas are obliged to present records of the recognition of such diplomas according to the Portuguese law.

**Applications submission:** Applications should be sent in PDF format by email to: [rui@isr.uc.pt](mailto:rui@isr.uc.pt).

**Submission of applications:** Between 2019/10/28 and 2019/11/22.

**Publication date:** 2019/10/24.

**Submission deadline date:** 2019/11/22.

**Additional information:** The evaluation results will be announced within 90 days after the end of the applications submission deadline, by notifying the applicants via email. After the announcement of the results, candidates are considered automatically notified to, if they wish to do so, comment on the results on a preliminary hearing period within 10 days after that date. After this, the selected candidates will have to declare in writing their acceptance. Unless a justification worthy of consideration is presented, if the declaration is not submitted within the referred period, it is considered that the candidate waives the grant. In case of resignation or withdrawal of the selected candidate, the next candidate with the highest evaluation score will be notified immediately.
